A Garden of Bright Images The title suggests a picture book, the publisher and sheer weight a textbook or monograph. Instead, it's a book for amateurs, a guide to computational models of nature for for people who like a bit of math and coding and want to learn more; this book will do a fine job of turning them into obsessives or professionals ...

Gary William Flake, The Computational Beauty of Nature

Given the nature of the book, it is odd that these programs are written in C, an engineers' language written for efficiently implementing an operating system. The first demonstration program, which introduces the section on computation, is an interpreter for a simple dialect of Lisp and there would have been a measure of computational beauty in writing the remainder of the programs in that ...
